### **Looking for an Internship?**

Take a look inside this issue for some of the projects we are currently working on! Shodor staff are always willing to work with individuals interested in science, math and computing. Contact us for more details: [info@shodor.org](mailto:info@shodor.org)

## **Activities for Kids Science & Math Explorations for Students**

### **Tessellate!**

This online activity gives students the opportunity to create their own tessellations, allowing them to discover the properties of tessellations through hands-on exploration. The activity starts out with one equilateral hexagon that has manipulateable edges and corners. After the student reconfigures the hexagon, a “Tessellate!” will tessellate the figure to cover an entire window. You can find this activity online at the URL below.

**Play Tessellate! at:**
