

## Spelling and Grammar Errors

“She old us about how she had helped program in NASA.”

to

“She told us about how she had helped program in NASA.”

“Then, Dr. Panoff showed us the Rabbits and Wolves simulation and we learned how to move randomly in Excel.

to

“Then, Dr. Panoff showed us the Rabbits and Wolves simulation, and we learned how to move randomly in Excel.

“I learned about many new things like semantics, GUI, diffusion, sandbox, and slide bars & check boxes.”

to

“I learned about many new things like semantics, GUI, diffusion, sandbox, slide bars, and check boxes.”

“During lunch, I met with Ernie and he told me what minor fixes I have to do to my website.”

to

“During lunch, I met with Ernie and he told me what minor fixes I have to make to my website.”

“Dr. Panoff talked about Vensim and I made my first Vensim model.”

to

“Dr. Panoff talked about Vensim, and I made my first Vensim model.”

“It was slightly hard to follow what was going on because I couldn't see the screen as he talked but I think that I got the models done correctly.”

to

“It was slightly hard to follow what was going on because I couldn't see the screen as he talked, but I think that I got the models done correctly.”

“I made an SIR model where disease spread and a "Thing" model where things move randomly in the world.”

to

“I made an SIR model where disease spreads and a "Thing" model where things move randomly in the world.”

“There was only one audio recording to listen to and in it Dr. Panoff talked about how to do diffusion on AgentCubes.”

to

“There was only one audio recording to listen to. In it, Dr. Panoff talked about how to do diffusion on AgentCubes.”

“The fish eat the plants and the adult sharks eat the fish. The adults sharks can reproduce with other sharks and the fish can reproduce with other fish.”

to

“The fish eat the plants, and the adult sharks eat the fish. The adults sharks can reproduce with other sharks, and the fish can reproduce with other fish.”

Heeba and I worked on the AgentCubes model while Jackson worked on the Vensim model.

to

Heeba and I worked on the AgentCubes model, while Jackson worked on the Vensim model.

“We commented out many of the ones including food because food isn't needed in a disease model.”

to

“We commented out many of the m, including food because food isn't needed in a disease model.”

“We started in a similart way to how we did when changing the predator prey model to a disease model: by changing the names of the agents.”

to

“We started in a similar way to how we did when changing the predator prey model to a disease model: by changing the names of the agents.”

“As we went we made backups to make sure that if something didn't work, then we could go back to a previous copy.”

to

“As we worked, we made backups to make sure that if something didn't work, then we could go back to a previous copy.”

“We did this with the coin flipping program we made yesturday.”

to

“We did this with the coin flipping program we made yesterday.”

“I progressed on the Javascript and PHP sections.”

to

“I progressed on the Javascript and PHP sections.”

“I learned about relational databases and I created one based on the data from yesturday.”

To

“I learned about relational databases and I created one based on the data from yesterday.”

“ I plan to finish this tommorow.”

to

“ I plan to finish this tomorrow.”

“Today, I worked on the Dice Roll database I connected it to my SQL table.”

to

“Today, I worked on the Dice Roll database. I connected it to my SQL table.”
